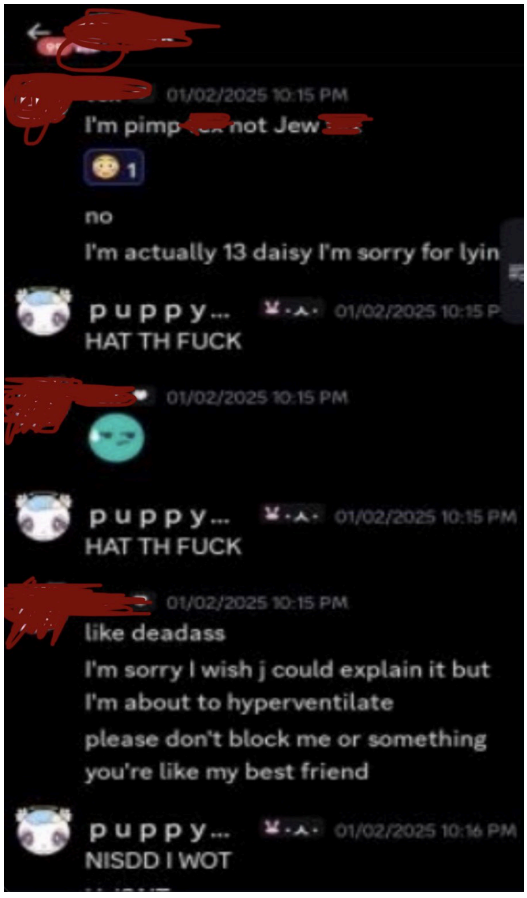
Message @puppybuns



First, take these instances of Daisy acknowledging this person is 13. This was **January of 2025. Now, 4 months later, here is Daisy asking a 13 year old to distribute CSEM:**

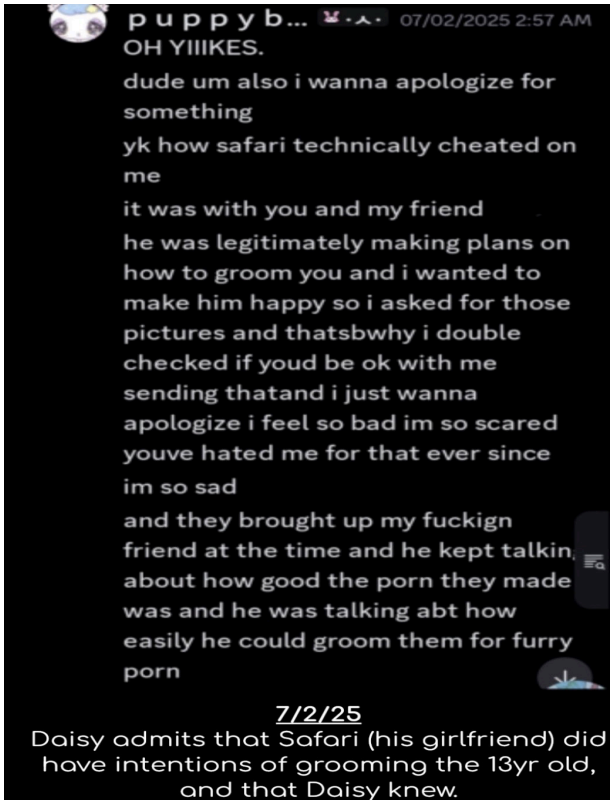
Daisy is 16 in these images, and is being a middleman for Safari (his partner that is younger than him) in giving them CSEM from a 13 year old through manipulation. He is also acknowledging the victims age in the same messages.

2 months later, here is him doubling down and shifting all the blame onto Safari, someone who is **younger, in a completely different country, and has no social media or contact to any of his friends**.



puppyb... 07/02/2025 2:57 AM
OH YIIIKES.
dude um also i wanna apologize for something
yk how safari technically cheated on me
it was with you and my friend
he was legitimately making plans on how to groom you and i wanted to make him happy so i asked for those pictures and thatsbwhy i double checked if youd be ok with me sending thatand i just wanna apologize i feel so bad im so scared youve hated me for that ever since
im so sad
and they brought up my fuckign friend at the time and he kept talkin about how good the porn they made was and he was talking abt how easily he could groom them for furry porn

Daisy admits that Safari (his girlfriend) did have intentions of grooming the 13yr old, and that Daisy knew.

You can probably suspect by what he means with **"technically cheated**," and they [Daisy and Safari] continued to stay in contact for months after until early 2026.[1]

Unless Daisy can provide direct evidence of blackmail/coercion (minus the possibility of Safari knowing actual terrible information about Daisy as blackmail, in which both parties involved are equally as horrible, or even more so), in which he did not in his debunk of claims[2], these claims of child sexual abuse are still valid, and Daisy is still a perpetrator and predator.

In said document, the claims against being a predator against this 13 year old are as follows (with their refutations in the footnotes):

- "If Lime introduced herself as the same age as me, hyperfixation or not - I did not overpower her. I was not even in school at this time, making me far too uneducated to even understand power imbalances ***to begin with***."[3]

---

[1] This can be proven by multiple sources who knew Daisy at the time with direct screenshot evidence, and it can also be proven by the fact that Evelyn/Safari stayed in the "tripartite" server until early 2026, when they were banned.

[2] https://docs.google.com/document/u/0/d/1A50B_IkHkkuKWIeiPWG681EZ5qnVh1AzDntvtnWGS04/mobilebasic

[3] Take this quote from a later document by a friend of Daisy: "(2026/06/11) **I'm going to reiterate this again: I don't stand behind this particular statement I've made. That being, abuse can happen unintentionally."**[Not my bolds]
It is important to have a consistent view here. Not being in school also does not have an affect on power dynamics with age and sexuality, which are mostly not taught by schools around the U.S. What is important is maturity and manipulation, and what has happened here is Daisy purposefully went after Tex, with Safari's help, because they were 13 ("...he was legitimately making plans on how to *groom* you"[My italics]).

- “I did not know how grooming or manipulation worked, even with me being groomed at this time - therefore I could not have done this myself, as grooming is a **planned** and **deliberate** process of manipulation.”[4]
- Tex was lying about her age.[5]
- “However, Safari asked me for explicit images of Tex. I expressed discomfort, being visibly grossed out, and even stating such. I remember saying things such as “She is pretty but I don't see her beyond that” and whatnot. Safari pushed more, and more over time, and with them using the tactics I mentioned earlier; I ended up complying.”[6]

There is no telling what has happened in the relationship between Safari and Daisy, and sources from any side have to interpret their stories in different ways because there is either no proof, an intense exaggeration[7], or the blame is pushed onto being Safari’s fault only. By word of mouth, Daisy has told multiple people that Safari was a pedophile and had masturbated to images of 10 year olds. Daisy has told multiple people that Safari knew how to use Tor for this, and also had given CSEM to Daisy (but was said to be “forced”). There are other gruesome events that cannot be said. Again, there is no proof for these claims, and the responsibility lies solely on Daisy on clearing these up with direct, legitimate proof.

It should also be noted that the only reason Daisy was mad at Safari in the screenshots were for cheating, and not for child abuse. The cheating being what happened to Tex.

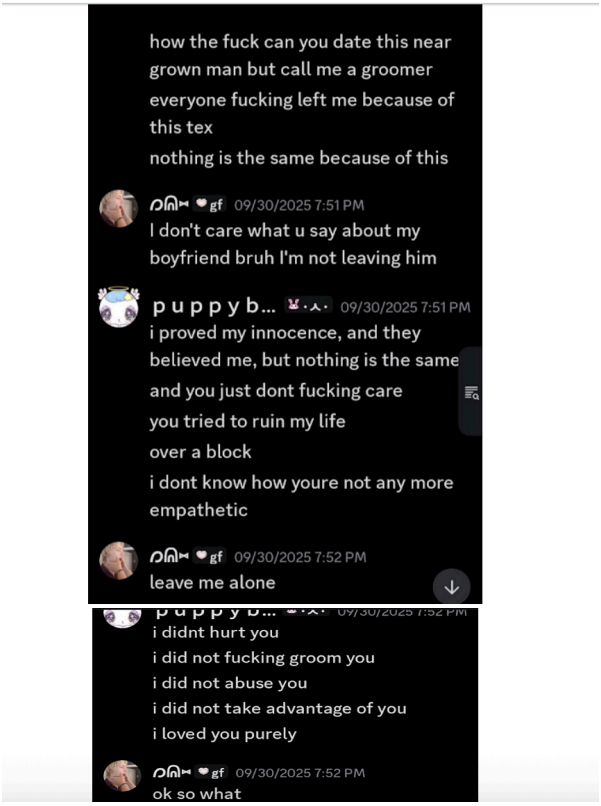
---

[4] Refer to footnote 3.

[5] This is a terrible attempt at DARVO, to inflict all of the harshness of the situation onto Tex, the victim who was 13 at the time and stressed from Daisy’s constant bombarding to get the truth of the situation, with wanting to ask for legitimate official proof of Tex’s age (which was confirmed multiple times) for months after Daisy had predated on Tex after knowing they were 13.

[6] These cannot be said without LEGITIMATE, OFFICIAL PROOF, which has NOT been given. There are NO screenshots in the entire document (footnote 2) of a SINGLE conversation between Daisy and Safari for this situation, and there are only screenshots of them arguing with each other.

[7] If Daisy or his supporters are mad at the use of exaggeration, then refer to the point where I say that, in the context of so many different retellings of the story conflicting with each other, it is nobody’s responsibility but Daisy’s to give nothing but legitimate proof of what happened in full. It is obvious that predation and pedophilia had happened, but to what degree we will never know unless Daisy is truly trying to get better and be honest about his dire mistakes in which he has unfortunately created victims who need help to get back to normalcy out of his time on the Internet.



how the fuck can you date this near grown man but call me a groomer

gf 09/30/2025 7:52 PM
ok so what

Take this image for a final note on this situation. This situation, to let it sink in, happened only **last year**, and Daisy has had **no therapy, no counseling,** has consistently been known to **consume and repost Lolicon content[8], and follow actual pedophiles and paraphiles.[9]**

---

[8] https://x.com/CupiditeBeware/status/2083537540204613980, the account was turned private and changed to https://x.com/kickmehitme directly after this exposé. The only defense was that these images were "Moe" and not Lolicon. His alt account @hvppyhvrdcore, in which he posed as an adult (proven here https://x.com/arguementburner/status/2075703397227917629), was deactivated as soon as this was exposed as well.

[9] This account was promoted, and is promoted now, as an NSFW account (by the time of writing this, he is still 17). The list of who was followed was exposed by a supposedly UTTP-related account named OmniJew. While that behavior is not supported, the evidence is still valid. https://x.com/omnijew/status/2084890581147214081 is the post that shares it.

This will be a long footnote, but here are the accounts that are noteworthy (do not harass any accounts, but these are the ones that are predatory):

- @outcestt is an anti-c paraphilia account, which means, in the case of contact, pro-pedophilia/zoophilia
- @petwifeowner (suspended, moved to @forwhimpering) is a lolicon/paraphile account. https://x.com/forwhimpering/status/2085765256849322210/photo/1
- @rodmeyster is a paraphile account that allows minors
- @daveicorn is a paraphile shotacon/lolicon account
- @melancholygame5 is a siscon paraphile account with the name "rory" (loli)
- @eeeeeuuguuwwwgh is a pedophile, and is friends with a known former pedophile in another community by the name of @bunnies9001, who now owns the account @plushiphile
- @bibleblood05 (now @bnmcel) is a 21 year old pedophile (and alleged rapist) that gave drugs and met up with Daisy explicitly only for sex.

And more.
